## Breakfast Sessions on Thursday 5 September 2024

Breakfast is between 6.30 and 7am in the Foyer area for delegates registered for a breakfast session. Sessions commence at 7 am sharp and conclude at 8.15 am

<b>Room:</b> TBC <b>Chairs:</b> TBC	
<b>1</b>	<p><b>General Movement Assessments in the Neonatal Unit and Infant Follow-Up</b>          Presenters: <i>Professor Alicia Spittle and Dr Joy Olson</i></p> <p>The General Movements Assessment is a non-invasive assessment based on observation of infant’s spontaneous movements. It can be used prior to term, up until 20 weeks’ corrected age, to identify infants who are at high-risk for neurodevelopmental conditions, such as cerebral palsy. In this session we will cover:</p> <ul style="list-style-type: none"> <li>• Typical development of general movements in preterm and term infants</li> <li>• Trajectories of general movements from birth, and predicting developmental outcomes, including cerebral palsy</li> <li>• Current research and clinical practice using the General Movements Assessment</li> <li>• Applications of the General Movements Assessment for infant assessment in the neonatal unit and follow-up in early infancy</li> <li>• Practical considerations for conducting the General Movements Assessment</li> <li>• Integrating technology, such as smartphone apps, into the General Movements Assessment</li> </ul>
