

## Supporting neonatal nursing educators and education quality

### Statement of Purpose

The Education SIG supports the objectives set by the National Executive Committee by monitoring, informing, and making recommendations on all aspects of neonatal nursing education, and by supporting SIG members as they undertake educational roles or projects in neonatal nursing. The SIG works collaboratively with other ACNN SIGs and Branches wherever possible. The Education SIG is committed to supporting and facilitating education, which promotes engagement for neonatal nurses, the advancement of neonatal nursing as a profession, and contributes to improved outcomes for the infants in our care.

### Objectives

- Promote, generate, disseminate, and advocate for neonatal education
- Develop productive research partnerships between ACNN members in clinical areas and between Education SIG and ACNN more broadly
- Strengthen the research, scholarly and public presence of ACNN, including its leadership in and contributions to policy and public debates relevant to neonatal nurses
- Provide education on any topic requested by members

### Membership

Membership is open to current financial members of the ACNN who are interested in neonatal nursing education.
